LETTERS

Dear Editor:

I enjoy Q-Link and the *Update*, but I do not get my issue of the *Update* until the second week of the month. This makes it hard to plan my time on Q-Link if the things I would like to do have already passed. I know I can get online to find out what's going on, but I use the *Update* to plan ahead. I, for one, do not have a lot of extra time, so I have to plan ahead!

Ron R9
Grantville, PA

Our top priority since the Update *was redesigned in August has been to get it out to Q-Link members earlier in the month. It took us a few months to make up the necessary time in production, but with last month's issue we began mailing the* Update *significantly earlier, and we intend to keep it that way!*

If you don't receive the Update *on a regular basis , contact Customer Relations to make sure your mailing address is listed correctly.*

To request a replacement copy of the Update *online, go to the Customer Service Center's Members' Online Guide. In the* Update *area of the Online Guide, post your screen name in the Request an* Update *Issue Here section, NOT the Post a Letter to the Editor area. That way Customer Relations staff will process your request immediately.*

There's also a calendar of Q-Link events that you can select from the main Customer Service Center menu.

To send a letter to the Editor, choose the Post a Letter to the Editor option in the Update *area of the Customer Service Center's Members' Online Guide.*

Dear Editor:

Thank you for the Q-Link Menu Map (September). This feature has helped me find my way around Q-Link. I found areas I didn't know existed! I no longer have to guess at where anything is, I just have to open the map and "voila," there it is!

Merlin
San Francisco, CA

Gee, thanks Merlin, it's always nice to hear we've been helpful! For online help in finding your way around Q-Link, as well as for new members who missed the September issue, check out the New Members Area on the main menu of the Customer Service Center. It's got a downloadable map of the system and an index you can look at to locate your interests online!

To all of my QFriends,

As I leave my position as People Connection Assistant Producer to assume new responsibilities, I'd like to take a moment to say thanks for all of the fun during the last year and a half!

From the parties and Auditorium events, to the game shows and contests, I couldn't have enjoyed it more.

Even some of the highlights — like cruising on the SSQuantum, hanging out at the Grand Q Hotel or rejoicing when Bonnie B3 was safely returned to her Bar — can't be summed up with just words. So, instead, I'll leave you with a :* and a { } !

EileenC

Good luck EileenC, we'll miss you!

Choose Your Own Prizes In the New Winner's Circle!

It's Q-Link's Anniversary Present to YOU!

This month we're celebrating Q-Link's third anniversary. In honor of the occasion, we present you exciting anniversary events, an outstanding party contest, and more chances than ever to win on Q-Link®!

Three Great Years, Thanks to You!

Since Q-Link made its debut on November 1, 1985, one factor has contributed more to our success than any other — our members! And because you've made Q-Link the unique, online community that it is, we present the Winner's Circle as our way of saying thanks for making Q-Link such a success!

The Winner's Circle centralizes the Q-Link prize system, allowing you to shop for the prize you want, save Q-Pons to redeem for bigger gifts, and see who else has won a QContest recently and entered the Winner's Circle!

Introducing the Winner's Circle

In the past, you've been able to earn Q-Pons, (Q-Link's program to reward frequent users), by participating in a variety of online and offline activities.

Now, Q-Pons will also be awarded as prizes for attending online events and entering Q-Link contests!

The Winner's Circle prize area, located on the main menu in The Mall, allows you to keep track of your Q-Pon balance and redeem Q-Pons for prizes of your own choice!

If you win a contest or door prize, you'll be awarded Q-Pons and be given an example of what you can buy with your winnings. For instance, you might win enough Q-Pons at a single event to buy the latest GEOS software application or a tote bag from the Q-Link Collection.

Then you'll be directed to the Winner's Circle. Check your Q-Pon bankroll in the Get Your Q-Pon Bankroll area. You have the option of cashing in your winnings by shopping in the Showcase of Prizes, or "banking" your Q-Pons to save for computer hardware, consumer electronics or other big prizes.

A Wealth of Great Prizes

There's a wide array of prizes to choose from in the Winner's Circle. You could pick popular software from Commodore Software Showcase publishers, like GEOS applications, Activision's *Maniac Mansion*, and EPYX' *California Games*.

You could also win sports equipment and Q-Link sweatshirts and mugs. Or save your Q-Pons for a stereo cassette player, high-quality VCR, 35mm camera, or state-of-the-art CD

Player! You will also find Commodore hardware in the Showcase of Prizes.

The list of merchandise to choose from will grow along with your Q-Pon total! Check out new additions to the prize list anytime by choosing the New in the Winner's Circle option. You'll also find a list of events and contests where you can win Q-Pons in This Month's Events & Contests. And when you or your friends choose a prize, look for your name in The Winner's Spotlight, a special area that lists recent winners!

For more information, stop by the Welcome to the Winner's Circle area. Detailed instructions are available by selecting the How to Redeem your Prizes option in the Winner's Circle.

Q-Link is thrilled to kick off our fourth year as an online community with the Winner's Circle. It's just our way of saying thank you for making it a great three years!

You Could Host Q-Link's Anniversary Bash! Contest Begins November 1

This month Q-Link brings you one of our most exciting — and unusual — contests ever! *You* create the idea for Q-Link's Anniversary Party, to be held this spring — if you come up with the best idea, we'll throw the party and you'll get to host it!

All you need to do is come up with an imaginative party idea — give the party name and theme, pick an exciting location, and tell us what food to serve and how to decorate. Use your imagination to dream up any kind of party you want, as long as we can put it together for $1,500. If your entry is chosen as the winner, your party will become a reality — the official Q-Link Anniversary Bash!

And we'll fly you and three of your Q-Link friends to host the party at the location you selected, anywhere in the continental United States! The round-trip air tickets are courtesy of EAAsy Sabre, American Airlines' online travel service located in The Mall.

We're looking for the most creative entry and use of funds, and the winning idea must be able to accommodate a large number of people — since we're inviting all the Q-Linkers in the region to come on by and help us celebrate!

The contest begins November 1, and the last day for entries is January 15, 1989. The winner will be announced February 1, so create the best Q-Link blowout you can dream up for our wildest contest yet!

Some restrictions apply. For complete details, check the Anniversary Party Contest area in The Mall's Winner's Circle!

(The Mall/The Winner's Circle/Anniversary Party Contest)

Special Anniversary Update Features

Throughout this month's issue of the *Update* you'll find special events and features that are part of Q-Link's third anniversary celebration.

Boxes scattered throughout the magazine contain informational "tidbits" about Q-Link's evolution over the past three years — think of them as "QMilestones" of our development. You'll find them highlighted by our special anniversary symbol — three candles representing our three years of existence!

The candles also highlight anniversary celebrations taking place throughout the month!

Keep an eye out for our new Winner's Circle emblem. This symbol is your key to special contests, forum meetings and other events where you can win Q-Pons to redeem in the Winner's Circle, the new prize center that's our anniversary gift to you

Commodore Information Network

Create Your Own Software in the Programmers' Workshop

Whether you are a newcomer to the Commodore keyboard or an expert computer programmer, you'll find top-notch resources and expertise in the Commodore Information Network's Programmers' Workshop.

Most home programmers write programs for a specific purpose, usually to fill a personal need or solve a problem. Now you can learn how to create a program customized to suit *your* needs!

For beginners, the Programmers' Workshop offers an introduction to several programming languages, the specific set of words and symbols you use to communicate your wishes to the computer. Veterans can get debugging software and program problem solutions by tapping into the expertise of Q-Link's online programming experts, led by SysOp BK, the group's coordinator. He and SysOp JL can also tell you how to go about learning COMAL, a public domain programming language.

Get the latest programming developments in the News and Events area, or post your programming questions on the subject-specific message boards for suggestions from fellow programming enthusiasts!

The Programmer's Workshop Software Libraries include a starter kit, tutorials, program editors, and programming language software. Look for special tutorials uploaded by Commodore expert Jim Butterfield.

If you're working on a problem routine or program, upload it to the Workshop area online for assistance from the group staff and members. They'll help you make *your* program work *your* way! Or submit a solution to the Monthly Programming Challenge, where your answer to a programming problem could win you free Plus time!

Beginning and experienced programmers alike come together to exchange programming tips and information at the Weekly Programmers' conference, Thursdays at 11 p.m. in the Workshop. Group events and conference topics are listed in the News and Events area, and information about joining the group is yours by entering the About This Group area listed on the main menu.

CIN Special Event — Roast the SysOps!

Don't miss the red faces and insulting fun when three of CIN's favorite Sysops submit to a roasting from their Support Group cronies on Wednesday, November 9 at 10 p.m. in the People Connection Auditorium.

The golden oldies will hear plaudits (and barbs) aimed at their invaluable (but sometimes eccentric?) group leadership. Come be a part of the fun — you could win Q-Pons to redeem in the all-new Winner's Circle!

(People Connection/Auditorium)

September, 1985

"Milady," (Leslie Hamerling) first signs on to Q-Link. She soon pioneers as a QGuide, then becomes one of the first CIN SysOps in the Beginners' Booth. Leslie is now Quantum's Manager of Support Development.

Q-Link Broadcasts Live from The World of Commodore Show!

Q-Link takes you to the World of Commodore Show on Saturday, November 5 at 10 p.m. in People Connection's Auditorium.

That's right! If you can't attend the show yourself, CIN Producer Paul Gernhardt has lined up a special panel of major exhibitors and Commodore experts to give you the latest details on new and improved hardware and software exhibited at the show by Commodore developers.

If you're one of the thousands planning to attend the show, be sure to stop by the Q-Link exhibit next to *Commodore* magazine. We'll be featuring live demonstrations of Q-Link, prize giveaways, and information about a special reception for Q-Link members (see inside back cover)!

Before you come to Philadelphia, check the special World of Commodore area on the main menu in the Commodore Information Network. You'll find details about the exhibitors, panel discussions, and other plans for one of the most exciting computer shows of the season!

"Test Drive" Software Before You Buy

You can test out programs you see at the trade show before you buy by previewing software demonstrations in the publisher support areas in the Software Support Center. Then order the featured merchandise online and have it delivered right to your door!

Once you buy software, the Commodore Software Showcase publishers support it in their areas online! Get your questions about commercial software answered by publisher representatives when you post messages on the help message boards in each publisher area of the CSS Software Support Center.

CSS Supports New "Modem Wars" from Electronic Arts®

Imagine commanding your troops on the battlefield — you know the enemy is near, but they're nowhere in sight! Q-Link members will be talking about Electronics Arts' new point-to-point simulation game, "Modem Wars," at the CSS Trade Show on November 13th. And as always, the Software Support Center in the Commodore Software Showcase will bring you the best game support for it!

"Modem Wars" lets two players with C64s and modems connect and try to outwit each other on the battlefield in this strategy war simulation!

Dial up your opponent, chat, then play — you can communicate during the game via online messages. Using your joystick, strategically place your "boomers" (artillary), "riders" (cavalry), "grunts" (infantry) and spies on your side of the battlefield. Your mission is to cross into enemy territory, gain terrain and knock out your opponent's Command Center.

You can create, camoulflage, disband, and manipulate your units depending on how you set them up. A range of realistic scenarios makes "Modem Wars" a different game every time you play, and diving missiles and kamikaze planes make for fast-paced action you won't forget!

Another unique feature of "Modem Wars" enables you to "film" your battle from three perspectives — yours, your opponents', or the full battlefield! Then you can view it or upload your battle film to Q-Link to show off your warring skills!

Two special message areas in the Electronic Arts support area of the Software Support Center are devoted exclusively to "Modem Wars" enthusiasts. Though you can play "Modem Wars" against your computer, why do that when you can use the Dedicated Finders message boards to find players in your area who are looking to challenge you? Hook up for the cost of a local phone call!

Post game "films" and questions to the Modem Wars strategy boards and exchange hints and strategies with other gamers; you can also get answers to your "Modem Wars" questions from the experts at Electronic Arts! Both message boards can be found in the Product Support Boards area on the main Electronic Arts menu.

$20,000 in Cash and Prizes Awarded In GEOS™ Desktop Publishing Contest!

Berkeley Softworks has picked the winners of their GEOS Desktop Publishing Contest, and the victors will divide more than $20,000 in cash and prizes!

Contestants were challenged to design publications using state-of-the-art GEOS desktop publishing applications like geoPublish, geoWrite and Graphics Grabber.

Competition took place in four categories, with Laser Printer and Dot Matrix printer divisions in three of the categories (all except poster), for a grand total of seven first prizes, seven second prizes, and seven third prizes!

Winners received the latest GEOS applications from Berkeley Softworks, Commodore computing peripherals, subscriptions to Q-Link, and twelve-month subscriptions to *RUN* magazine. First place winners in each category received $1,000 cash and their winning entries will be featured in *RUN*!

Entries were judged on creativity, originality, composition, layout, content and overall design.

Q-Link provided a GEOS Publishing Contest area online, where Q-Linkers could get contest information, the entry form and find all-around GEOS support. The contest ended June 30, and this month, More to Do on Q salutes the contest winners!
